

ICAEW at FI Birmingham: Apprenticeships and Exam Only Programmes

FI Birmingham are proud and excited to launch our ICAEW programme. We have created a programme to provide more flexibility and convenience for learners, deliver fantastic pass rates, and provide great value to employers.

Our first pathway to launch is a blended programme.

At Certificate level, students attend classroom courses for Accounting and Assurance, and utilise our FI Online courses for the remaining modules. FI Online courses are supported by our FI tutor team, and are structured to give learners more flexibility and control over how and when they study.

At the Professional and Advanced levels, students complete the tuition phase by attending our FI Online Live courses. FI Online Live courses provide an engaging and interactive learning experience that students can attend from anywhere they have internet access - reducing time spent traveling.

At the revision phase, students will attend classroom revision courses. We believe that students benefit from revising in a classroom environment that allows for focus and support.

We will be adding more pathways as we speak to local clients - please get in touch!
