

# ICAEW Course Information

ICAEW is an England and Wales professional membership organisation that promotes, develops and supports chartered accountants and students nationally.

The first 6 papers (certificate level) are on-demand exams which means that you can sit the exams when you are ready.

The 6 professional papers we teach towards sittings in June and December. They have scheduled exam dates and must be booked via ICAEW. The exams will be sat at a centre that is provided by ICAEW.

The final 3 advanced stage papers can be sat together or individually at sittings in July and November. Again, these exams will be sat at a centre that is provided by the ICAEW.

## Why choose the extended study path?

During the standard study path, students will study the Certificate Level within an a shorter period, however, this isn't always the best way to study. Below, we cover the reasons a longer programme length can be better suited for students.

### Fully Embedded Knowledge

It allows for the knowledge to be fully embedded before moving onto the professional level papers where it will be built upon further. The longer programme also provides students time to apply the knowledge in the workplace.

### More Structured Time

This path is ideal for school leavers or non-relevant graduates who would require more time to fully cover all the worked lecture examples and benefit from structured question practice.

### Better Suited than AAT

ICAEW CFAB better prepares students for the full ICAEW (level 7) qualification, there is a natural progression compared to doing AAT. There is also the added value of quicker exam result turnaround time compared to AAT.

### Allows for Catch Up Time

CFAB is a challenging qualification. The longer programme allows more time to consolidate knowledge between phases and provides flexibility if a student were to fall behind.
