Level 7 training options

From 1st January 2026, government funding for Level 7 apprenticeships will apply only to 16–21-year-olds and under-25s who are care leavers or have an EHCP. We've developed solutions so that learners no longer eligible for funding can continue to benefit from skills development and coach support.

Apprenticeship

The Apprenticeship route utilises funding and develops skills and behaviours with wrap around support. Apprentices are provided with the support of a dedicated skills coach and benefit from the development of the knowledge, skills and behaviours needed for them to succeed.

Exam Plus

First Intuition's new Exam Plus pathway is designed for learners who are not eligible for Level 7 Apprenticeship funding. Learners benefit from a programme that mirrors the apprenticeship, offering consistency of experience within trainee intakes.

Exam Only

The Exam Only pathway is a good option for learners who would prefer to focus on training for professional qualifications only, without additional support from a skills coach. The Exam Only pathway includes the option to bolt-on our ISP modules.

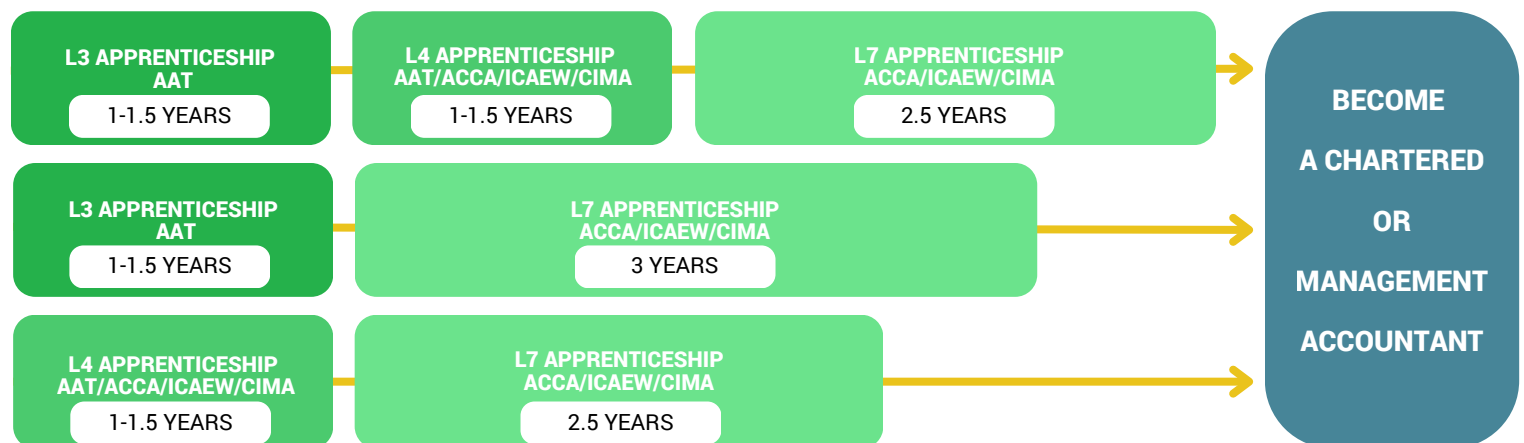

NEW: Exam Plus

The Exam Plus Pathway offers a cost-effective way for employers to offer a consistent experience to learners who are not eligible for apprenticeship funding but may be training alongside other colleagues on an apprenticeship route. Learners following an Exam Plus programme will access comprehensive skills development courses and support from a skills coach throughout their programme.

Pathways to Level 7

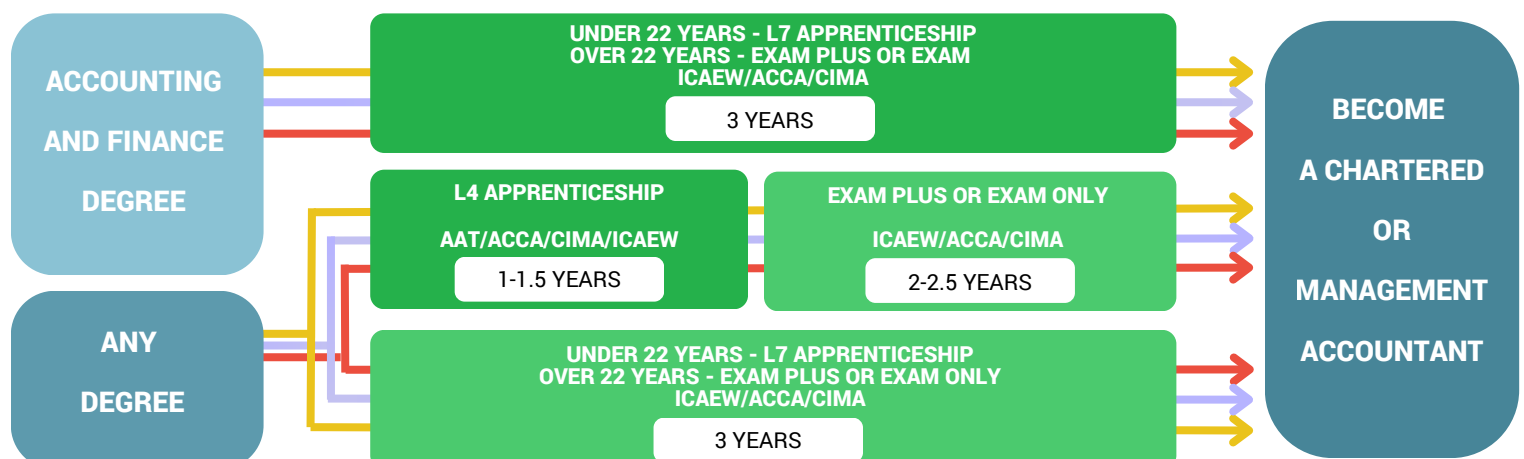

Training to become a Finance Professional remains incredibly flexible, offering a variety of routes to achieving a professional accountancy qualification. Below we set out the primary options available for employers to consider when planning training programmes. Our experienced team can provide advice and guidance on the most appropriate routes for your organisation and trainees.

Apprenticeship Funded (School Leavers)

Apprenticeship/Commercially Funded (Graduates)

● APPRENTICESHIP ● EXAM PLUS ● EXAM ONLY

Our tailored approach

We work with employers to build the right combination of solutions for your business, blending apprenticeship and commercial training options to maximise your return on investment alongside offering a robust and supported experience for your trainees.
